WELCOME TO NICKELODEON UNIVERSE®

Our goal is to make sure that you experience all the thrills and chills this theme park has to offer while staying safe. This instruction manual was created to assist you in making the correct decision on which rides are right for your use.

NICKELODEON UNIVERSE® PROVIDES THESE SAFETY SYSTEMS:

Theme park rides incorporate safety systems designed by the manufacturer to accommodate people of average physical stature and body proportions. These safety systems may place restrictions on your ability to safely experience the ride. Guests with the following may want to reconsider riding the ride, as the rider may not be safely accommodated:

- History of heart problems
- Back or neck troubles
- Had recent surgery
- Currently pregnant
- Body braces, leg or arm casts
- Restrictive devices
- Physical disabilities

The ride admission policy has been developed based on the recommendations of the manufacturer, past experience and evaluation of each ride, in regular and emergency operating conditions. The ultimate consideration is the ability of each person to endure the dynamics of each ride without risk of injury to the individual or other riders. Our ride operators are trained to make your visit a memorable one. However, they are not trained to transfer guests with mobility impairment in or out of the ride. It is essential that a responsible person accompany guests requiring such assistance. The responsible person assisting must be qualified to ride and capable of controlling the actions of the unqualified rider. Should additional assistance be needed, our central Guest Service desk is located near the Carousel at the north entrance of Nickelodeon Universe®.

ACCESSIBILITY IN NICKELODEON UNIVERSE®

Nickelodeon Universe® retail shops and Guest Services are accessible to guests with mobility impairments. Dutchman's Deck Adventure Course, located on level two, is accessible to guests with mobility impairments by using the elevator located in West Market Square.

RESTROOMS

All restrooms in Nickelodeon Universe are accessible to guests with mobility impairments. Family restroom facilities are located in the southwest corner of the park, near Shell Shock and the north entrance to the park, near the Namco® Arcade and Midway.

TELEPHONES

Telephones are located at all main entrances of the Mall and have at least one phone that is accessible to guests in a wheelchair. TTY equipped phones are also available on level one.

BASIC RIDE INFORMATION

In order to ride independently, a rider must have:

- the ability to exhibit seated postural control under dynamic conditions of the ride
- appropriate center of gravity, control of upper torso (including neck and head), ability to hold on with one functioning arm, ability to brace self with one functioning leg
- minimum of two functioning extremities
- ability to enter/exit ride within specified parameters without endangering self or others
- mental capacity to be aware of the hazards, to self or others, of failure to ride in prescribed manner

Depending on the specific dynamics of each ride, the following may not be permitted:

- handheld infants, Milwaukee brace, cervical collar or neck brace, broken collarbone, full arm cast, braced arm cast, brace between legs or full leg cast

In case of an emergency, extreme weather conditions, mechanical problems or other interruptions, an evacuation may be required. Guests may need to maneuver across catwalks at high points of a ride and may need to go down steeply inclined catwalks or stairs.

A detailed explanation of this information can be found on pages 11 +12.

For safety reasons, large items such as strollers, wheelchairs, stuffed animals, clutch purses, shopping bags, umbrellas, crutches, cameras, etc., may be taken past the ride entrance, but may not be permitted on the ride. Headphones, cell phones, tablets, etc. may not be used on the rides. Please store such items in lockers or leave them with a non-rider. Ride operators will not be able to hold items belonging to guests.

SERVICE ANIMALS

Service animals can be accommodated on the following rides: Carousel Bench, Ghost Blasters, El Círculo del Cielo and Big Rigs. See an Operations Supervisor for specific information concerning your service animal.

CASTS + BRACES

Guests with a cast or leg or arm braces will be restricted from riding a ride where the cast, leg or arm braces may present a danger to the rider or others. If in doubt regarding your ability to safely experience a ride, consult with an Operations Supervisor. Entry through the special access entrance will be limited to the guests requiring the access and up to three escorts. Additional members in your party should enter the ride through the standard entrance and join the guest and escorts at the loading area. Special access entrances are intended to accommodate guests needing special assistance and not to bypass others waiting in line.

CHAPERONES

When a guest is required to be accompanied by a responsible chaperone, the responsible chaperone must be able to safely ride the ride, in addition to assisting the guest during entering and exiting and maintaining their postural control under the dynamics of the ride. Guests with mobility impairments shall have the option of riding two (2) consecutive times. After the second consecutive ride there may be an additional wait time prior to the individual repeating the same ride.

ADDITIONAL INFORMATION

SECURE LOOSE ARTICLES

Please leave all loose articles with a non-riding member of your party or in a provided cabinet at certain rides. Nickelodeon Universe® is not responsible for lost, damaged or stolen articles.

UNIVERSE OF LIGHT

A nightly light show that spans much of the park and multiple floors on the south side of the Mall uses strobe lights and smoke effects. See our website or Guest Services for more complete schedule.

SMOKING POLICY

In accordance with Bloomington City Council Ordinance, Nickelodeon Universe prohibits smoking of any kind, including electronic devices. Smoking is allowed outside Mall of America®, 25 feet or more from the entrance.

FOOD AND BEVERAGE

Please refrain from eating and drinking refreshments in the loading area or on rides.

APPROPRIATE ATTIRE

Nickelodeon Universe is a family oriented theme park and appropriate dress, shirts and shoes are required at all times. Graphics and language on clothing must be acceptable while in Nickelodeon Universe. Bathing suits are not allowed.

LINE JUMPING

Everyone should be given a fair opportunity to enjoy a ride as quickly as possible, therefore line jumping is not permitted under any circumstances.

CAMERA POLICY

Picture taking on most rides is not permitted due to safety reasons. Ride operators may not hold cameras for guests. Cameras are considered loose articles and must follow the loose articles policy. Cameras are permitted on El Círculo del Cielo Ferris Wheel and the bench of the Carousel.

LOST AND FOUND

All the items found in Nickelodeon Universe® are turned into Guest Services. If you lose an item on a ride, an immediate search may not be possible, but there will be a search for the article as soon as the opportunity is available.

GUESTS SEPARATED FROM THEIR PARTY

To prevent separation from your group, please supervise your children and establish a specific time and place to meet in Nickelodeon Universe. Remind all members of your group to ask a uniformed employee for help if they become separated or lost. Nickelodeon Universe will contact security immediately once a uniformed employee is notified. Parties can be reunited at Guest Services.

SPECIAL SERVICES

Nickelodeon Universe® offers several services to accommodate everyone. Some rides in Nickelodeon Universe have a special access entrance, which is marked with an illustrated sign. All guests using this service, with up to three escorts, are asked to wait for assistance at the special access entrance. Mall of America® has a limited supply of wheelchairs at Guest Services, located on level one, at all main entrances. A \$5 deposit is required. We urge guests to bring their own. Wheelchairs can be accommodated in the retail shops, arcade and game areas. All restrooms in Nickelodeon Universe are designed for wheelchair access. Service Animals, for guests who require them, are welcome in Nickelodeon Universe.

ADDITIONAL REQUIREMENT CRITERIA

In Nickelodeon Universe®, height requirements have been developed for safety and to maintain the ride manufacturer's recommendations. Some children under the height requirement may be able to ride certain rides with a chaperone. Shoes are required on all rides in Nickelodeon Universe except the Pineapple Poppers, where socks are required. Height requirements are enforced. The following criteria may be required to ride a particular ride safely:

1. ABILITY TO EXHIBIT INDEPENDENT SEATED POSTURAL CONTROL UNDER THE DYNAMIC CONDITIONS OF THE RIDE.

Explanation: The guest must have the body and spinal control to sit upright without aid of other people or devices and be able to maintain the proper riding posture even during bumping or other characteristic movements of the ride. Certain ride units, such as carousel figures, requires the ability to form a saddle posture with the guest's thighs.

2. APPROPRIATE CENTER OF GRAVITY.

Explanation: The guest's body must have the appropriate weight distribution for the ride.

3. CONTROL OF UPPER TORSO INCLUDING NECK AND HEAD.

Explanation: The guest must have sufficient muscle control to support his/her head, neck and upper torso during the course of the ride, including the dynamic motion of the ride.

4. MINIMUM OF TWO FUNCTIONING EXTREMITIES.

Explanation: Guests must have a minimum of two functioning extremities (one arm and one leg) to brace themselves during the ride and assist in entering and exiting the ride unit.

ADDITIONAL REQUIREMENT CRITERIA CONTINUED

5. ABILITY TO ENTER/EXIT RIDE WITHIN SPECIFIED PARAMETERS WITHOUT ENDANGERING SELF OR OTHERS.

Explanation: Guest must be able to enter and exit the ride without jeopardizing themselves or others and to assist with their own evacuation if necessary. This may include special arrangements, such as entering through the exit or having someone assist them in boarding. If a guest has to be lifted in and out of the ride unit, this must be accomplished by a responsible person who is accustomed to doing this. For the safety of our operators and guests, our ride operators are instructed not to perform this function.

6. MENTAL CAPACITY TO BE AWARE OF HAZARDS, TO SELF OR OTHERS, OR FAILURE TO RIDE IN PRESCRIBED MANNER.

Explanation: Guest must have sufficient awareness to understand the consequences of actions that may lead to injury to self or others.

7. APPROPRIATE OBSERVED BEHAVIOR.

Explanation: Guest demonstrates appropriate observed behavior indicating a willingness and ability to participate and/or follow rider requirements. In addition to basic physical and mental requirements defined above, each ride was evaluated relative to specific temporary conditions which may prevent a guest from safely riding a particular ride. Specific conditions evaluated were:

- Milwaukee brace
- Cervical collar or neck brace
- Broken collarbone
- Full arm cast
- Braced arm cast
- Bilateral abduction leg cast
- Brace between legs

HEIGHT REQUIREMENTS

Nickelodeon Universe® takes your safety very seriously. For safety reasons, all rides have height requirements. These requirements are clearly marked at the entrance to each ride and attraction, please read carefully to ensure you meet all requirements.

36" TALL OR UNDER 36" TALL WITH A RESPONSIBLE CHAPERONE:
Big Rigs/Blue's Skidoo/La Aventura de Azul

Masher/Barnacle Blast Zip Line

48" TALL OR 42" TALL WITH A
RESPONSIBLE CHAPERONE:
Crazy Cars
Ghostly Gangplank Ropes Adventure Course

Please read and observe posted rules, regulations, instructions and warnings prior to participation on the attractions. While all amusement attractions have associated risks, certain individuals are at increased risk for injury from these attractions. Please carefully evaluate each attraction to determine if you or members of your party can safely participate. If you would like more information about the abilities our attractions require, see the Rider Safety Signs at each attraction entrance or stop by Guest Services, located near the North entrance of Nickelodeon Universe® by the Carousel. If further information is needed or if a special need is not addressed, please contact Guest Services.

WARNING! Some rides in Nickelodeon Universe are dynamic and thrilling. For your protection, each ride is rated for speed, motion and other special features. Restrictions for guests, due to height or weight, are posted at certain rides. All guests should refer to this Rider Safety Guide and/or the signs posted at each ride entrance and participate responsibly. You should be in good health to ride. You know your physical conditions and limitations, Nickelodeon Universe does not. If you suspect your health could be at risk for any reason or you could aggravate a pre-existing condition of any kind, do not ride. All passenger restraint systems including, but not limited to, lap bars, shoulder harnesses and seat belts, must be positioned and fastened properly to allow you to ride.

KEY SYMBOLS/ RATING SYSTEM

CHILDREN'S RIDE – Low speed.

MILD THRILL RIDE – Low to medium speeds, gentle motion and breaking.

MODERATE THRILL RIDE – Low to medium speeds, heights may vary. Moderate or unexpected forces can be generated during the ride.

HIGH THRILL RIDE – May have high speeds or heights, significant or unexpected forces can be generated during the ride.

AGGRESSIVE THRILL RIDE – High speeds or heights, aggressive and unexpected forces generated during the ride. Riders may experience rapid directional changes.

SYMBOLS

Not recommended for guest with back trouble.

Not recommended for guest with heart trouble.

Not recommended for guest with neck trouble.

Not recommended for pregnant women.

Not recommended for guest with recent surgery.

AVATAR AIRBENDER

RIDE RATING:

TRIP TIME: 45 seconds

POINTS TO RIDE: 6

Ride a 'wave of air' rocking back and forth to reach heights of 70 feet as air and fire forces rage in battle around you! Bend the air waves with Aang on his spinning sled.

RIDE ACCESS

Guests with mobility impairments can access the attraction through the exit.

REQUIREMENTS

Riders should have the ability to support their body. The rider must be able to maintain an upright and stable position throughout the ride. Riders must have at least one lower extremity to accommodate the restraint system. Due to the nature of the support system, size restrictions may apply.

- Must be 48" tall to ride.
- Due to the aggressive nature of this ride, individuals who are prone to motion sickness should consider whether or not to ride this attraction.
- Loose articles are not allowed on this ride. Guests should leave medical devices with a non-riding member of the party.
- Riders with visual impairments may wish to be accompanied.
- This ride may not accommodate guests of a larger size (height or weight) due to configuration of the restraint system.

BACK AT THE BARNYARD HAYRIDE

RIDE RATING:  3

TRIP TIME: 1.5 minutes

POINTS TO RIDE: 3

Take an “udderly” mad dash through the Barnyard with Otis and the rest of the party animals on this family friendly coaster. It’s sure to be a wild ride!

RIDE ACCESS

Guests with mobility impairments can access the attraction through the ramped exit.

REQUIREMENTS

Riders must be able to enter the coaster car, with or without assistance, by climbing two steps, one 7.5” tall and 9.5” tall. The door to the car is 12” wide. The car is also tilted inwards at a 7 degree angle. Riders must have the ability to maintain an upright and stable position. Riders should have at least one lower extremity to accommodate the restraint system. Due to the nature of the restraint system, size restrictions may apply.

- Due to the aggressive nature of this ride, individuals who are prone to motion sickness should consider whether or not to ride this attraction.
- Riders must be at least 42” tall. Riders under 42” tall must be accompanied by a responsible chaperone.
- Loose articles are not allowed on this ride. Guests should leave medical devices with a non-riding member of the party.
- Strobe lights used on this ride.

BACKYARDIGANS SWING-ALONG

RIDE RATING:

TRIP TIME: 2 minutes

POINTS TO RIDE: 3

Swing and fly along with the Backyardigans as you reach heights of up to 27 feet. Let your imagination soar and explore the whimsical world of the Backyardigans – without ever leaving your seat!

RIDE ACCESS

Guests with mobility impairments can access the attraction through an exit gate.

REQUIREMENTS

The seats of this ride are elevated two feet above the ground. The guest (and/or responsible chaperone) must be able to hold the seat steady as they attain a seated position. The restraint system is a horizontal bar that is lowered vertically in front of the rider. The bar is then secured to a strap that is attached to the bottom of the seat. Riders should have the ability to support their upper body due to the forces of this ride. The rider must be able to maintain an upright and stable position. Riders should have at least one lower extremity to accommodate the restraint system. Due to the nature of the restraint system, size restrictions may apply.

- Due to the circular motion of this ride, individuals who are prone to motion sickness should consider whether or not to ride this attraction.
- Riders must be 39" tall or over to ride. Riders 39" tall and under 43" tall must wear safety harness and sit in a double seat with responsible chaperone. Rider 43" tall and under 47" tall may ride alone with the safety harness. Riders must be 47" tall to ride alone.
- Maximum of 164 lbs. per single seat and 374 lbs. per double seat.
- Riders with a fear of heights should be aware that the seats of this attraction reach a height of 25 feet when fully elevated.
- This ride may not accommodate guests of a larger size (height or weight) due to configuration of the restraint system.

BIG RIGS

RIDE RATING: 1

TRIP TIME: 2.5 minutes

POINTS TO RIDE: 3

Hit the road behind the wheel of a kid-sized Big Rig. Motor down the highway, honk your horn and wave to the passersby. Catch you on the flip side, little buddy!

RIDE ACCESS

Guests with mobility impairments can access the attraction through the entrance gate located on the right side of the main ride entrance.

REQUIREMENTS

There are two areas per truck in which guests can sit. The first area is in the cab of the truck, which is enclosed and will only accommodate children. The doorway is 16" wide and 16" off the ground. Riders must be able to enter the cab and maintain an upright and stable position. The second seating area is above the cab, which accommodates both adults and children. The entry is 16" wide and 20" off the ground. Riders in the back area must have at least one lower extremity to accommodate the seat belt.

- Riders must be 36" tall to ride or under 36" tall and accompanied by a responsible chaperone. Children are not allowed to ride on the lap of the chaperone.
- Riders under 36" tall and their chaperones must sit on the upper seat with chaperone on the outside.

BLUE'S SKIDOO

RIDE RATING: 2

TRIP TIME: 1.5 minutes

POINTS TO RIDE: 3

Fly through the air with Blue and Magenta! You can use your on-board control buttons to glide up and down!

RIDE ACCESS

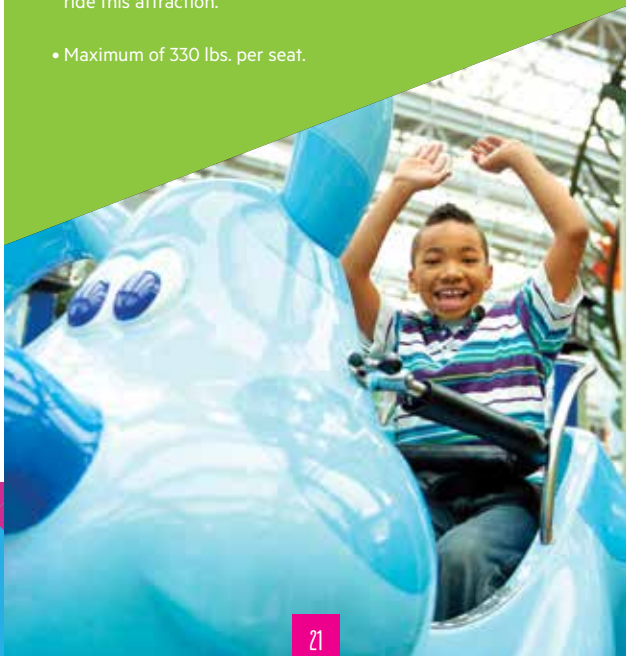

Guests with mobility impairments can access the attraction through the exit gate.

REQUIREMENTS

Riders are seated individually on this attraction.

The rider must be able to maintain an upright and stable position. Riders must have at least one lower extremity to accommodate the restraint system. Responsible persons may need to assist riders in and out of the seat.

- Riders must be 36" tall to ride or under 36" tall and accompanied by a responsible chaperone. Children are not allowed to ride on the lap of the chaperone.
- Due to the circular motion of this ride, individuals who are prone to motion sickness should consider whether or not to ride this attraction.
- Maximum of 330 lbs. per seat.

BRAIN SURGE

RIDE RATING:

TRIP TIME: 1.5 minutes

POINTS TO RIDE: 6

This interactive, circular ride allows guests to be in control of their own movements. Spin round and round, upside down or backwards – each time you ride is different! Feel the Surge as this 16 person thrill ride moves you in every direction.

RIDE ACCESS

Guests with mobility impairments can access the attraction through the ride exit.

REQUIREMENTS

Seats on the ride are accessible by transporting the rider up a 3” step and a distance of 60” to the seat. Seats are 42” tall from the ride deck, with a width of 20”. The rider must be able to step or be lifted on to the ride deck. Due to the forces of this ride and the ride restraint bar, riders must be able to support their upper and lower body. Riders must have at least one lower extremity to accommodate the restraint system. Please note that the elevations of the floor change frequently as you enter and exit the ride.

- This ride may not accommodate guests of a larger size (height or weight) due to configuration of the restraint system.
- Riders must be 48” tall to ride.
- Riders with a fear of heights should be aware that this attraction reaches a height of 12 ft. when fully elevated.
- Riders with visual impairments may wish to be accompanied by a chaperone.
- Loose articles are not allowed on this ride. Guests should leave medical devices with a non-riding member of the party.
- Riders who are prone to motion sickness should consider whether or not to ride this attraction.

BUBBLE GUPPIES GUPPY BUBBLER!

RIDE RATING:  3

TRIP TIME: 2 minutes

POINTS TO RIDE: 3

Swim into your bubble gondola and soar high above it all, for a Guppy's-eye-view of the deep! And keep a lookout for that playful Bubble Puppy who's always up to something!

RIDE ACCESS

Guests with mobility impairments can access the attraction through the exit gate.

REQUIREMENTS

- The shell has an opening of 11" at its narrowest point and 18" at its widest point.
- The step up into the shell is 16" from the floor.
- The seat is 8" deep and 10" from the floor of the shell. Guests must be able to get in the basket and maintain an upright and stable position.
- Responsible chaperone may need to assist riders in and out of the basket.
- Minimum height to ride alone is 42", or rider must ride with a chaperone.
- Only one chaperone is required per shell.
- Maximum weight per shell is 550 lbs.
- Maximum 4 riders per shell, no more than 2 adults per shell.
- Riders should have at least one lower extremity to accommodate the restraint system.
- Due to the nature of the restraint system, size restrictions may apply.
- Riders who are prone to motion sickness should consider whether or not to ride this attraction.
- Shells rotate freely, so caution must be taken when entering and exiting.

CAROUSEL

RIDE RATING: 2

TRIP TIME: 2 minutes

POINTS TO RIDE: 3

Take a spin on an old-fashioned carousel, a family favorite.

RIDE ACCESS

Guests with mobility impairments can access the attraction through the exit. The ride is equipped with a ramp that will provide access to the turntable. On the turntable, the chariot's seat can be folded up to expose a set of wheel locks. Most wheelchairs can be locked into place and a seat belt is provided.

REQUIREMENTS

Riders who are ambulatory may ride on the figures provided they can hold the brass pole by grasping the pole with at least one extremity and control their center of gravity or ride on the chariot. The rider must be able to maintain an upright and stable position. Seat belts must be worn by all guests riding on the figures. The seat belt size is due to a weight restriction of 170 lbs. for each moving figure, stationary figures have a larger seat belt and is a safety device for guests under 42" tall.

- Individuals with a history of motion sickness or balance problems should consider whether or not to ride.
- Riders must be 42" tall to ride, under 42" tall must be accompanied by a responsible chaperone. The chaperone must stand next to the figure during the entire ride cycle and needs to stand between the two figures.
- This ride may not accommodate guests of a larger size (height or weight) due to configuration of the restraint system.

CRAZY CARS

RIDE RATING:

TRIP TIME: 2.5 minutes

POINTS TO RIDE: 6

Rock out with the Crazy Cars in crazy bumper car action that's totally smashing! Pick your car and let it roll on this rockin' ride!

RIDE ACCESS

Guests with mobility impairments can use the exit located across from Wonder Pets Flyboat.

REQUIREMENTS

To access the Crazy Cars there is an 11" step down. The side of the car has a height of 15". Guests must be able to enter the floor and the Crazy Cars with assistance from a responsible chaperone. Riders must be able to maintain an upright and stable position. Riders should have at least one lower extremity to accommodate the restraint system. Due to the nature of the restraint system, size restrictions may apply. Guests riding alone must be able to depress a foot pedal and steer the car with a steering wheel.

- Due to the aggressive nature of this ride, individuals who are prone to motion sickness should consider whether or not to ride this attraction.
- Due to the nature of this ride, collisions with other cars will occur from any angle.
- Riders must be 48" tall to drive or 42" tall to ride with a seat belt and accompanied by a responsible chaperone.
- Riders with visual impairments may wish to be accompanied.

DIEGO'S RESCUE RIDER

RIDE RATING: 2

TRIP TIME: 2 minutes

POINTS TO RIDE: 3

Ride along with Rescue Pack on another wild animal rescue adventure! This Rescue Rider bus will swing you round and round to help Diego on his journey.

RIDE ACCESS

Guests with mobility impairments can enter the ride through the entrance gate located on the left side of the main ride entrance, or through the exit.

REQUIREMENTS

The Rescue Rider can be entered through an opening that is 13.5" off the ground, 9.5" wide at the bottom, 12" at the top and 16" tall. There are 10.5" between the front of the seat and the front knee bar. Riders must be able to get in the Rescue Rider and maintain an upright and stable position. Responsible chaperones may need to assist the rider into and out of the ride. Riders should have at least one lower extremity to accommodate the lap restraint. Due to the nature of the restraint system, size restrictions may apply.

- Riders who are prone to motion sickness should consider whether or not to ride this attraction.
- Riders must be 42" tall to ride or under 42" tall accompanied by a responsible chaperone. Chaperone must sit in the outside seat.
- Maximum weight of 440 lbs. per row.
- This ride may not accommodate guests of a larger size (height or weight) due to configuration of the restraint system.

EL CÍRCULO DEL CIELO

RIDE RATING: 2

TRIP TIME: 5-8 minutes

POINTS TO RIDE: 6

Circle high above the crowd with Dora and Boots on our Ferris Wheel. Take in a view of the park from over seven stories high!

RIDE ACCESS

Guests with mobility impairments can access the ride through the ride exit. El Círculo del Cielo is located on level two of Nickelodeon Universe®. It is accessible to guests with mobility impairments by using one of the elevators located:

- Lift provided under ride
- North entrance of Mall of America
- East Rotunda in Mall of America®

REQUIREMENTS

Each basket is equipped with two doors that only open inward. The clearance of the basket door when open is 11.5" wide at the bottom and 16" wide at the top. The clearance between the open door and the center post is 14". Guests should be able to board and exit the basket either by themselves or with help from a responsible chaperone. The baskets do swing freely and cannot be held motionless when entering.

- Each basket can seat up to six (6) children or four (4) adults.
- Single riders are not allowed.
- Riders with a fear of heights should consider the height of this attraction before riding.
- Riders must be at least 42" tall unless accompanied by a responsible chaperone.
- All riders must be able to maintain an upright and stable position.
- Maximum of 680 lbs. per basket.

FAIRLY ODD COASTER

RIDE RATING:

TRIP TIME: 1.5 minutes

POINTS TO RIDE: 6

This hilarious misadventure provides hairpin turns, plummeting spirals and speeding tracks. You'll whirl out of control as you spin through the park with Cosmo and Wanda.

RIDE ACCESS

Guests with mobility impairments can access the attraction through the exit gate.

REQUIREMENTS

Riders should have the ability to support their body. The rider must be able to maintain an upright and stable position throughout the ride. Riders must have at least one lower extremity to accommodate the restraint system. Due to the nature of the support system, size restrictions may apply.

- Due to the aggressive nature of this ride, individuals who are prone to motion sickness should consider whether or not to ride this attraction.
- Riders must be 47" tall to ride. Riders 43" tall must be accompanied by a responsible chaperone.
- Maximum of four riders per car, one per seat.
- The ride has one lift section that is powered by an electric motor. There is a possibility the car might stop on the lift in the event of a power failure. Guests would be evacuated and make their way down the lift. The lift is positioned at a 32.7 degree angle and has 97 steps measuring 23.5" wide by 12" deep. Guests must be able to exit the car and climb down the stairs. Each rider must be able to climb down the stairs on their own as it would be difficult to be assisted by a responsible chaperone. Guests unable to exit on their own will be carried off in a stair chair after all ambulatory guests have exited.
- Loose articles are not allowed on this ride. Guests should leave medical devices with a non-riding member of the party.
- Maximum weight of 660 lbs. per car.
- This ride may not accommodate guests of a larger size (height or weight) due to configuration of the restraint system.

GHOST BLASTERS

RIDE RATING: 2

TRIP TIME: 3 minutes

POINTS TO RIDE: 6

Ghost Blasters takes you on a slow journey through 11 rooms in the Bleakstone Manor. Along the way you will be able to blast ghosts with the Boo Blaster. Due to the darkness, the ride uses black lighting and strobe lights. Parental discretion is advised.

RIDE ACCESS

Guests with mobility impairments can enter the ride through the exit gate located on the left side of the main ride entrance.

REQUIREMENTS

Riders will have to step up 15.5" off the ground through an opening of 13.5". Responsible chaperones may need to assist riders in and out of their cars. The restraint system on this ride is a horizontal bar that is lowered vertically in front of the rider. Speeds on this ride are two to three mph and riders must be able to maintain an upright and stable position. Due to the use of strobe lights, this ride is not recommended for guests with neurological disorders. Riders should have at least one lower extremity to accommodate the restraint system. If a guest will be using the Boo Blaster, they must have the ability to use one arm and hand.

- 42" tall to ride or under 42" tall must be accompanied by a responsible chaperone.
- Riders with visual impairments may wish to be accompanied.
- Maximum of 550 lbs. per car.
- Chaperone must occupy the outside seat.
- Strobe lights are used on this ride.

JIMMY NEUTRON'S ATOMIC COLLIDER

RIDE RATING:

4

TRIP TIME: 3.5 minutes

POINTS TO RIDE: 6

Climb aboard with Jimmy Neutron and take one of his out-of-this-world inventions for a test drive. Hear your space age engine accelerate wildly, whipping you up, down and around! Hang on tight in case of near misses with other vehicles!

RIDE ACCESS

Guests with mobility impairments can access the attraction through the exit.

REQUIREMENTS

Seats of this ride are elevated two feet above the ground. Riders must be able to step up into the seat or be lifted by a responsible chaperone. Riders must have the ability to support their upper body due to the force of this ride. Riders must be able to maintain an upright and stable position. Riders should have at least one lower extremity to accommodate the seatbelt and lap bar. Due to the nature of the lap bar and seat belt, size restrictions may apply.

- Due to the aggressive nature of this ride, individuals who are prone to motion sickness should consider whether or not to ride this attraction.
- Riders with a fear of heights should be aware that this ride reaches a height of 50 feet when fully elevated.
- Riders must be 47" tall.
- Maximum of two riders per car.
- Larger or single riders must sit in the outside seat.
- Riders with visual impairments may wish to be accompanied.
- Loose articles are not allowed on this ride. Guests should leave medical devices with a non-riding member of the party.

LA AVENTURA DE AZUL

RIDE RATING: 1

TRIP TIME: 2.0 minutes

POINTS TO RIDE: 3

All aboard for a whimsical journey on Azul, the blue train. Head out on a storybook journey through the world of Dora the Explorer.

RIDE ACCESS

Guests with mobility impairments can enter the ride through the exit.

REQUIREMENTS

All cars of the train have one 12" step. The guest should be able to climb into the car. Riders must be able to maintain an upright and stable position. Responsible chaperones may need to assist riders in and out of the cars.

- 36" tall to ride or under 36" tall and accompanied by a responsible chaperone.
- Maximum weight of 800 lbs. per car.
- This ride may not accommodate guests of a larger size (height or weight) due to configuration of the restraint system.

LOG CHUTE

RIDE RATING:

TRIP TIME: 5.5 minutes

POINTS TO RIDE: 6

Hang on tight while traveling through an authentic lumber mill as your log boat cascades down a 40' drop to the waiting water below. Prepare yourself to get soaked.

RIDE ACCESS

Guests with mobility impairments can enter the ride through the exit located to the far right of the ride entrance adjacent to the photo booth.

REQUIREMENTS

Riders should have the ability to support their upper body due to the force of this ride. The rider must be able to maintain an upright and stable position. The interior of the boat has grab bars and foot holds to assist with postural control. Prosthetic devices should be protected from water. Riders should have at least one upper and lower extremity.

- Due to the aggressive nature of this ride, individuals who are prone to motion sickness should consider whether or not to ride this attraction.
- Riders must be 47" tall. Riders 36" tall must be accompanied by a responsible chaperone.
- Maximum of four (4) riders per boat.
- Loose articles should be left with a non-rider or they may be taken on the boat. Nickelodeon Universe is not responsible for lost or damaged items.

Requirements continued on next page.

LOG CHUTE

- The ride has two lift sections that is powered by an electric motor. There is a possibility the boat might stop on the lift in the event of a power failure. Riders would be evacuated and make their way down the lift. Riders must be able to exit the boat and climb down the exit ramp, which is 18" wide. Each lift is positioned at a 25 degree angle. Each rider must be able to climb down the stairs on their own as it would be difficult to be assisted by a responsible chaperone. Riders unable to exit on their own will be carried off on a backboard after all guests have exited.
- Only one non-ambulatory guest is permitted on the ride at any given time.
- The water in the channel is moved by electric pumps. In the event of a power failure, riders would be required to evacuate their boats in the channel and negotiate narrow passages and 39 stairs. After all ambulatory riders have been evacuated, mobility impaired riders will be evacuated on a backboard.
- Riders with visual impairments may wish to be accompanied.
- Riders may get soaked.
- Maximum weight of 680 lbs. per boat.

PEPSI® ORANGE STREAK

RIDE RATING:

4

TRIP TIME: 2.5 minutes

POINTS TO RIDE: 6

A spine-tingling ride in a sleek, orange vehicle, this coaster streaks down a twisting, turning track through the entire park, leaving nothing but screams and startled pedestrians in its wake.
